Student Right-To-Know Graduation and Transfer-Out Rates

What is Student Right-To-Know?

Student Right-To-Know is a federal law that requires all colleges and universities to disclose certain information to students. This handout provides the information that a college must provide to students on graduation rates and transfer-out rates for full-time students seeking degrees at Hibbing Community College (HCC).

What is a graduation rate and what is a transfer-out rate?

Federal regulations specify how to calculate the graduation and transfer rates. The rates come from a study of Hibbing Community College students who started at the college in the fall of 2014. The study includes all first-time students who enrolled full-time that fall and were seeking to earn a degree, diploma or certificate at the college. The **graduation rate** is the percentage of these students who graduated from HCC within three years. The **transfer-out rate** is the percentage of these students who did not graduate from HCC, but instead transferred to another college or university within three years.

What do I need to know about these rates?

These rates do not report on all students at Hibbing Community College. The 200 first-time, full-time students in the study were 15 percent of all students enrolled at HCC in fall of 2014.

What are the graduation and transfer-out rates for Hibbing Community College students and how do they compare to rates for other colleges?

- The **graduation rate** for HCC was 41 percent.
- The **transfer-out rate** for HCC was 22 percent.
- The combination of the graduation rate and the transfer-out rate for HCC was 62 percent. The national average combined rate for similar colleges was 43 percent.

Why don't more Hibbing Community College students graduate or transfer in three years?

- Since HCC has an “open door” mission, many new students need to take “developmental” courses to improve their reading, writing or math skills before taking other college courses;
- Students who switch from full-time to part-time enrollment or “stop out” for one or more semesters are more likely to take more than three years to graduate;
- Some students take jobs before they graduate;
- Other students delay their education for personal, family or financial reasons.
