HIBBING COMMUNITY COLLEGE

Hibbing Community College, a technical & community college, was established on July 1, 1996, through the consolidation of Hibbing Community College and Range Technical College-Hibbing.

Hibbing was one of the first towns in the nation to expand educational opportunities by opening a two-year college in 1916. Thus, Hibbing Community College, is one of the oldest two-year colleges in Minnesota and the nation. Eleven students attended the first and only course offered in 1916 at Hibbing Junior College — later known as Hibbing State Junior College and then as Hibbing Community College. Campus locations changed three times from North Hibbing, to the west wing of Hibbing High School and finally to its current location.

The Hibbing Area Vocational Technical Institute was established in 1962. It responded to the need to provide post-secondary vocational opportunities for high school graduates and miners who were being affected by the “boom and bust” cycles on the Iron-Range. The institution was renamed a “technical institute” in 1987 and a “technical college” in 1989. In 1992, it merged with the Eveleth campus to form Range Technical College.

Today, Hibbing Community College, a technical & community college, serves more than 1,400 students in credit courses each year, in addition to approximately 15,000 students in customized training. The college offers a wide variety of liberal arts courses, transfer programs, occupational and technical programs, customized training, continuing education, student activities, recreational and athletic programs and fine arts programs.
